

Metabolic Pathways

Roche Biochemical Pathways
4th Edition, Part 1 – Editor: Gerhard Michal

www.biochemical-pathways.roche.com

General Remarks for Part 1

1. The pathways are arranged in a grid system (A-L, 1-10).
2. The pathways are color-coded by system: Glycolysis (red), Citric Acid Cycle (black), Fatty Acid Metabolism (green), Amino Acid Metabolism (blue), and Nucleotide Metabolism (purple).
3. The pathways are numbered 1-10.
4. The pathways are arranged in a grid system (A-L, 1-10).
5. The pathways are color-coded by system: Glycolysis (red), Citric Acid Cycle (black), Fatty Acid Metabolism (green), Amino Acid Metabolism (blue), and Nucleotide Metabolism (purple).
6. The pathways are numbered 1-10.
7. The pathways are arranged in a grid system (A-L, 1-10).
8. The pathways are color-coded by system: Glycolysis (red), Citric Acid Cycle (black), Fatty Acid Metabolism (green), Amino Acid Metabolism (blue), and Nucleotide Metabolism (purple).
9. The pathways are numbered 1-10.
10. The pathways are arranged in a grid system (A-L, 1-10).

Abbreviations for Part 1

Notes for Part 1

Legend

- Red: Glycolysis
- Black: Citric Acid Cycle
- Green: Fatty Acid Metabolism
- Blue: Amino Acid Metabolism
- Purple: Nucleotide Metabolism
